Panasonic

tado°

tado° smart heating customers save an average of 22% on their energy consumption.

*   Based on internal data averaged across all tado° customers, collected up to 11/2023.

Aquarea Heat Pumps and smart control with tado°.

Unlocking maximum efficiency and savings - without sacrificing cosy temperatures at any time.

Panasonic and tado° have partnered up to bring your heating experience to a new level. Heating your home will be made simple, cost-efficient, reliable and set up as individually as your home.

Tailor-made simplicity
Choose the package tailored to your needs and control everything in one easy-to-use app.

Quality you can rely on
We offer outstanding quality on both the heat pump and the smart control. If needed, our customer service is here for you.
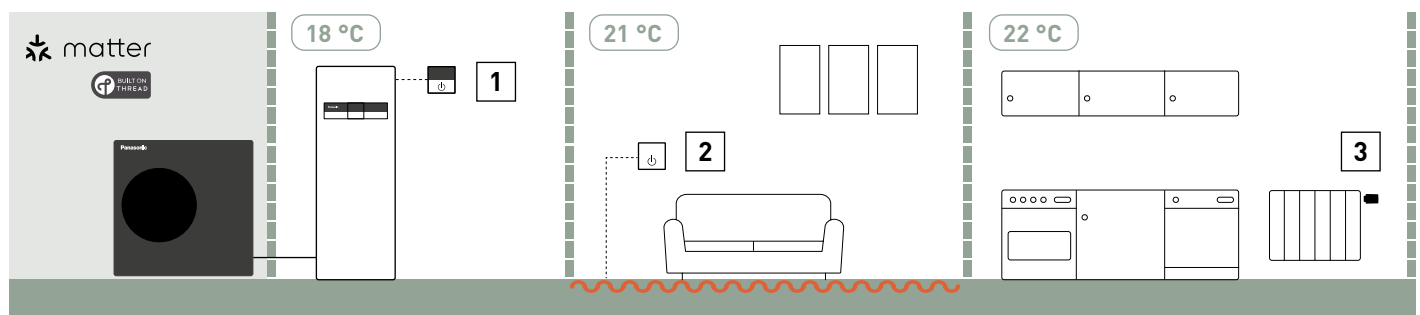

Efficiency and cost-savings
Reduce your energy consumption and cost while staying ahead of future carbon-reduction policies.

Future-proof technology
We use the latest standards (Matter & Thread) and provide regular free updates to enhance your experience.

A smart solution for maintaining the perfect temperature in your home.

tado° Heat Pump Optimizer X and Balance for Heat Pumps

Intelligent heating control optimised for Aquarea Heat Pumps, reducing energy use while optimizing comfort. When paired with Smart Thermostats, the heat pump synchronises with each room's needs.

The optional Balance subscription maximizes savings by unlocking additional optimisations based on outdoor temperatures, dynamic energy tariffs, and your private PV system.

12-month free subscription to Balance for Heat Pumps*.
Available in app.

*With the purchase of PAW-THPOXE or PAW-THPOXUK. This promotion is subject to change without notice.

tado° Room Control

Save energy, save money, and stay comfortable everywhere. tado° Smart Thermostats simply replace the radiator thermostats or wall thermostats in your home and let you control your heating room by room in one easy-to-use app. Set individual schedules to suit your routines while saving energy by allowing direct feedback from the single rooms to your heat pump. No more overshooting, no more wasting energy.

1) Requires the tado° Heat Pump Optimizer X, the tado° Bridge X or another Thread border router.
2) Not required with a Heat Pump Optimizer X or another Thread border router.
